

Dipl.-Ing. Dr.-Techn. Velitchko Filipov, BSc.

Academic Resumé

Position: Postdoctoral Researcher,
TU Wien, Faculty of Informatics

Fields: Computer Science, Human Computer Interaction,
Visual Analytics, Network Analysis

Languages: English (C2), German (C1), Bulgarian (Native)

LinkedIn: [in linkedin.com/in/velitchko-filipov/](https://www.linkedin.com/in/velitchko-filipov/)

Contact: ✉ velitchko.filipov@tuwien.ac.at

Research Profile

Postdoctoral researcher in visual analytics, human-computer interaction, and complex networks, with a growing focus on metascience, research methods, and responsible artificial intelligence (AI)-supported knowledge work. My work develops interactive systems and methodological tools that make analytical choices, uncertainty, provenance, and human judgment inspectable in complex relational and dynamic data. I bring experience in interdisciplinary collaboration, project leadership, teaching, supervision, and open research practice.

1 Education

2024	Ph.D. (Dr.-Techn.) TU Wien Field: Visual Analytics, Faculty of Informatics Dissertation: “Networks in Time and Space: Visual Analytics of Dynamic Network Representations” Advisor: Prof. Silvia Miksch, Reviewers: Fabian Beck & Carolina Nobre	📍 <i>Vienna, Austria</i>
------	---	--------------------------

2018	M.Sc. (Dipl.-Ing.) TU Wien Field: Human-Centered Computing, Faculty of Informatics Thesis: “Visual Exploration and Comparison of Multiple Resumes: Focus on Time and Space” Advisor: Prof. Silvia Miksch	📍 Vienna, Austria
2013	B.Sc. TU Wien Field: Media Informatics, Faculty of Informatics Thesis: “Social Interface and Interaction Design” Advisor: Dr. Peter Leitner	📍 Vienna, Austria

2 Employment & Further Training

2024–Present	Postdoctoral Researcher Vienna, Austria Responsibilities: • Co-principal investigator (co-PI) & work-package lead for ArtVis & SANE • Establish collaborations & proposal writing • Teaching & supervision	📍 TU Wien
2017–2024	PhD Student Vienna, Austria Responsibilities: • Research on visualization of dynamic networks [Fil24b] • Publish & present research at top-tier visualization venues • Contribute to teaching, student supervision, & academic service	📍 TU Wien
2023–Present	CTO Remote Responsibilities: • Translate research prototypes into deployable products • Technical strategy lead & system architecture • Managing releases & roadmap	📍 iPal Network
2021–2023	Developer Remote Responsibilities: • Data analysis & visualization tools for large-scale blockchain data • Implement models for sentiment analysis	📍 Trading Sentiment (iPal Network)
2015–2016	Junior Web Developer Vienna, Austria Responsibilities: • Design & implement interactive web-based applications	📍 codeQ
2012–2014	Junior Researcher Remote Responsibilities: • Support applied research projects for volumetric rendering	📍 Crocotta R&D Ltd (Urban Hawk)

2009	Junior Web Designer <i>Sofia, Bulgaria</i> Responsibilities: • Design and implement visual layouts and interactive web interfaces	📍 Bianor (WiserTechn) ↗
2008	Junior Web Designer <i>Sofia, Bulgaria</i> Responsibilities: • Design layouts and interactive web interfaces	📍 Nextborn (WiserTech) ↗

3 Prizes, Awards, & Honors

DH Award 2025 – Best Tool / Suite of Tools: ArtVis↗

“ArtVis – Art History Visualized”

Authors: **V. Filipov**, M. Tuscher, T. Kamencek, R. Rosenberg, S. Miksch

Awarded by the Digital Humanities Awards for the ArtVis tool suite

Honorable Mention IEEE VIS 2025: Award↗

“Layers of Doubt: Typology of Temporal Uncertainty in Dynamic Diffusion Networks” [Bau+25]

Authors: T. Baumgartl, **V. Filipov**, S. Rajendran, S. Miksch, D. Archambault, A. Arleo, T. Landesberger

Awarded at IEEE VIS Uncertainty Visualization Workshop, 2nd of November 2025

Best Full Paper EuroVis 2025: Award↗

“NODKANT: Exploring Constructive Network Physicalization” [Pah+25]

Authors: D. Pahr, S. D. Bartolomeo, H. Ehlers, **V. Filipov**, C. Stoiber, W. Aigner, H.-Y. Wu, R. G. Raidou.

Awarded at EuroVis, 3rd of June 2025

Top Cited Article 2025: Award↗

“Are We There Yet? A Roadmap of Network Visualization from Surveys to Task Taxonomies” [FAM23]

Authors: **V. Filipov**, A. Arleo, S. Miksch

Wiley & Sons, 19th of March 2025

Best Dissertation Nominee 2024: Entry↗

“Networks In Time and Space: Visual Analytics of Dynamic Network Representations” [Fil24b]

Author: **V. Filipov**

TU Wien Informatics Awards, 2nd of December 2024

Best Paper VIS4DH 2019: Award↗

“Bridging the Gap between Visual Analytics and Digital Humanities: Beyond the Data-Users-Tasks Design Triangle” [Sch+19]

Authors: V. Schetinger, K. Raminger, **V. Filipov**, N. Soursos, S. Zapke, S. Miksch

Awarded at IEEE VIS 2019, Vancouver, Canada

Graph Drawing Contest 2019: Award↗

“The Fabric of Heroes” [Fil+19a]

Authors: **V. Filipov**, A. Arleo, D. Ceneda, S. Miksch

Awarded at the 27th International Symposium on Graph Drawing and Network Visualization

Graph Drawing Contest 2018: Award↗

“The Circle of Thrones” [Fil+18]

Authors: **V. Filipov**, D. Ceneda, M. Koller, A. Arleo, S. Miksch

Awarded at the 26th International Symposium on Graph Drawing and Network Visualization

EPILOG - Best Master Thesis Nominee 2018: Entry[↗]

“Visual Exploration and Comparison of Multiple Resumes: Focus on Time and Space” [Fil17]

Author: **V. Filipov**

Presented at TU Wien, 18th of January 2018

4 Invited Talks & Events

- **giCenter:** “Networks in Motion: networks, diffusion, influence tracing, and what-if?” [Fil26]
giCenter, London, United Kingdom, 2026
- **IEEE VIS TVCG Invited Paper:** “TimeLighting” [Fil+24b]
IEEE VIS, Vienna, Austria, 2025
- **BioMedVis:** “Networks in Motion” [Fil25]
Ludwig Boltzmann Institute, Vienna, Austria, 2025
- **IEEE VIS TVCG Invited Paper:** “A Space and Time Odyssey” [Fil+23a]
IEEE VIS, Florida, US, 2024
- **WinterGraph:** “Research Unit Introduction” [Fil24c]
(internal workshop), Kaprun, Austria 2024
- **Shonan Seminar:** “Dynamic Perspectives” [Fil24a]
Material Sciences, Shonan, Japan, 2024
- **EuroVis CGF Invited Paper:** “Are We There Yet?” [FAM23]
EuroVis, Leipzig, Germany, 2023
- **AustroVIS:** “Chronicles of Artist Exhibitions” [Fil+23d]
(internal workshop), AustroVIS, 2023
- **Vienna Perspectives:** “Interactive Music Mapping Vienna” [Fil22]
Groove The City, Vienna, Austria, 2022

5 Academic Cooperation & Funding

Total Funding Contributed/Managed: €2.0M across 5 Austrian Science Fund (FWF) projects

SANE: ViSual ANalytics for Event-based Diffusion on Networks (FWF WEAVE) 2024 – ongoing

Principal Investigator: Asst.Prof. Alessio Arleo

Role: co-PI & work-package lead, Post-Doc. Senior Researcher

Funding: FWF 10.55776/I6635 (425,282 €)

Responsibilities:

- Supervising junior researchers
- Leading work packages
- Disseminating findings
- Project management

Topics: Dynamic Networks, Spatial Data, Temporal Data, Information Diffusion, Uncertainty

ArtVis: Dynamic Network Perspectives on Digital Art History (FWF) 2022 – ongoing

Principal Investigator: Prof. Silvia Miksch

Role: co-PI & work-package lead, Post-Doc. Senior Researcher

Funding: FWF 10.55776/P35767 (410,779 €)

Responsibilities:

- Contributed to obtaining funding
- Supervising junior researchers
- Leading work packages
- Disseminating findings

- Project management

Topics: [Dynamic Networks](#), [Spatial Data](#), [Temporal Data](#), [Digital Humanities](#)

KnoVA: Knowledge Assisted Visual Analytics (FWF)

2020 – 2022

Principal Investigator: Prof. Silvia Miksch

Funding: FWF 10.55776/P31419 (407,008 €)

Role: Pre-Doc. Junior Researcher

Responsibilities:

- Contributing to project goals
- Developing, designing, and evaluating visualization approaches
- Disseminating results through publications and presentations

Topics: [Guidance](#), [Knowledge Modeling](#), [Healthcare](#)

IMMV: Interactive Music Mapping Vienna (FWF)

2017 – 2020

Principal Investigator: Prof. Susana Zapke

Role: Pre-Doc. Junior Researcher

Funding: FWF 10.55776/AR384 (415,338 €)

Responsibilities:

- Contributing to project goals
- Developing, designing, and evaluating visualization approaches
- Disseminating results through publications and presentations

Topics: [Dynamic Networks](#), [Spatial Data](#), [Temporal Data](#), [Digital Humanities](#)

PolyCube: Towards Integrated Mental Models of Cultural Heritage Data (FWF)

2017 – 2019

Principal Investigator: Dr. Eva Mayr

Funding: FWF 10.55776/P28363 (342,895 €)

Role: Pre-Doc. Junior Researcher

Responsibilities:

- Contributing to project goals
- Developing, designing, and evaluating visualization approaches
- Disseminating results through publications and presentations

Topics: [Spatial Data](#), [Temporal Data](#), [Set-typed Data](#), [Digital Humanities](#), [Uncertainty](#)

6 Teaching Activity

I support junior researchers and supervise students. I teach (Bachelor & Master) courses on information visualization and design.

PhD Theses (co-supervision):

- (2024–ongoing) “Designing Dynamic, Uncertainty-Aware Glyphs for Visualizing Information Diffusion”. Sandhya Rajdendran
[Dynamic Networks](#), [Spatial Data](#), [Temporal Data](#), [Information Diffusion](#)
- (2023–ongoing) “Relationship Analysis in Cultural Heritage Data”. Michaela Tuscher
[Dynamic Networks](#), [Spatial Data](#), [Temporal Data](#), [Digital Humanities](#)
- (2022–ongoing) “Dynamics of modern artist groups around 1900: Collectivity, Connectivity, Conditions, Consequences”. Terersa Kamencek
[Dynamic Networks](#), [Spatial Data](#), [Temporal Data](#), [Digital Humanities](#)

Master Theses (direct supervision):

- (2024) “Dynamic Network Analysis with Centrality Measures*”. Luca Rauchenberger
[Dynamic Networks](#), [Temporal Data](#), [Digital Humanities](#)

- (2023) “Utilizing Visual Analytics for Network Exploration in the Domain of Art History Research”. Adam Nedas
[Dynamic Networks](#), [Temporal Data](#), [Digital Humanities](#)

Bachelor Theses (direct supervision):

- (2026) “Dynamic MetroMap Visualization for Information Diffusion”. Benedikt Gschmeidler.
[Dynamic Networks](#), [Temporal Data](#), [Information Diffusion](#)
- (2026) “Schematic Representations of Information Diffusion”. Michael Matte
[Dynamic Networks](#), [Temporal Data](#), [Information Diffusion](#)
- (2025) “Effective Methods for Visualizing Museum Artist Networks”. Oliver Kastner
[Dynamic Networks](#), [Temporal Data](#), [Digital Humanities](#)
- (2025) “AdMaTile: Visualizing Dynamic Adjacency Matrices in a Multiple-Coordinated-View System*^{*}”. Nikolaus-Mathias Herl
[Dynamic Networks](#), [Temporal Data](#)
* Results of the thesis were published at Graph Drawing 2025 [HF24]
- (2024) “Temporal Motif Detection in Dynamic Networks”, Alexander Tashkov
[Dynamic Networks](#), [Temporal Data](#), [Guidance](#)
- (2021) “PromNetworkVis: Dynamic Network Visualization to Patient-Reported Outcome Measures”. Mert Usul
[Dynamic Networks](#), [Healthcare](#), [Knowledge Modeling](#)
- (2019) “Visualization of Time-oriented Multivariate Survey Data”. Dominic Vallaster
[Temporal Data](#)
- (2019) “EventQuery: Visual Querying & Pattern Matching in Time-Oriented Geospatial Data”. Christoph Gwihs
[Dynamic Networks](#), [Spatial Data](#), [Temporal Data](#)
- (2018) “An Interactive Dashboard Approach for the Visual Analysis of Rocket Flight Data”. Thomas Khlebovitch
[Spatial Data](#), [Temporal Data](#)

Teaching (Bachelor & Master courses):

- (VU) Information Visualization (6 ECTS, 194 participants 2025)
- (VO) Information Design and Visualization (3 ECTS, 48 participants 2023)
- (UE) Information Design and Visualization (1 ECTS, 48 participants 2023)
- (SE) Seminar on Human-Centered Computing, Information Visualization (3 ECTS, 43 participants 2025)
- (PR) Projects in Media and Human-Centered Computing (12 ECTS, 43 participants 2025)
- (PR) Projects: Visual Computing 1 & 2 (6 & 6 ECTS, 43 participants 2025)
- (PR) Bachelor & Master Theses (10 & 30 ECTS, 4 participants 2025)

7 Service to Academic Community

I actively contribute to the academic community through reviewing, organizing, and committee work:

Journal Reviewing

- CGF, Computer Graphics Forum (Wiley & Sons)
- TVCG, Transactions on Visualization and Computer Graphics (IEEE)
- C&G, Computers & Graphics (Elsevier)

Conference Reviewing & Program Committees

- Reviewer, ACM Symposium on Applied Computing – 2026
- Reviewer, IEEE VIS (Full and Short Paper Tracks) – 2024, 2025, 2026
- Reviewer, IEEE PacificVis (Conference and Journal Paper Tracks) – 2024, 2025, 2026

- Reviewer, Pacific Graphics (Full Paper Track) – 2025, 2026
- Reviewer, EuroVis (Full, Short, Education Paper Tracks) – 2024, 2025, 2026
- Reviewer, Graph Drawing & Network Visualization – 2024, 2025
- Program Committee, Full Papers @ IEEE VIS – 2026
- Program Committee, Track 2 @ Graph Drawing & Network Visualization – 2026
- Program Committee, Short Papers @ IEEE VIS – 2025
- Program Committee, EduVis Workshop @ IEEE VIS – 2025, 2026
- Program Committee, VIPRA Workshop @ EuroVis – 2024, 2026 BPM – 2025
- Program Committee @ Visual Analytics in Healthcare Workshop @ IEEE VIS – 2021, 2023, 2025

Workshop Organization and Chairing

- Organizer & Co-Chair, VisGames Full-day Workshop (Second Edition) @ EuroVis – 2026
- Organizer, README.md Tutorial on Reproducibility in Visualization Research @ EuroVis – 2026
- Paper & Session Chair, Visual Analytics in Healthcare Full-day Workshop @ IEEE VIS – 2025
- Organizer & Co-Chair, VisGames Half-day Workshop @ EuroVis – 2025

Local Organization

- Local Organizer for **EuroVis**[↗] – 2026
- Organizer for **AustroVis Workshop**[↗] – 2026

Academic Service

- Representative of the Scientific Staff Council for TU Wien, Faculty of Informatics – 2021, 2022, 2023, 2024, 2025, 2026

Building Collaborations

I actively build interdisciplinary collaborations, particularly with art historians and scholars in the humanities, by engaging directly with researchers and their problems. My approach is grounded in openness, initiative, and sustained dialogue: reaching out, starting conversations, and exploring whether there is a shared research question worth pursuing. Rather than beginning from predefined solutions, I focus on understanding domain-specific challenges, constraints, and opportunities, and on identifying where visualization and analytics can meaningfully contribute.

This translates into interactive, hands-on, and co-design-oriented methods that support stakeholder engagement, requirements elicitation, and communication across disciplinary boundaries. I place particular emphasis on onboarding and the development of shared conceptual language to support knowledge exchange and continuity in interdisciplinary research settings.

This approach to collaboration has led to a diverse set of joint publications, successful project proposals, and ongoing interdisciplinary research partnerships.

Open Science: My publications are open access ([Google Scholar](#)[↗]; [Web of Science](#)[↗]; [ResearchGate](#)[↗]). Implementations as well as results and analysis are open-sourced ([GitHub](#)[↗] and [GitLab](#)[↗]). I actively promote reproducibility, replicability, and transparency through the Graphics Replicability Stamp Initiative ([GRSI](#)[↗]) and provide publication materials on the Open Science Framework ([OSF](#)[↗]).
